

BlueOval SK Opens Executive Office Space, Recruiting Center in Elizabethtown

Now Hiring in Kentucky

ELIZABETHTOWN, Kentucky – BlueOval SK is pleased to announce the opening of its new executive office space in Elizabethtown, Kentucky. The approximately 51,000-square-foot facility, located at 2323 Ring Road, will also serve as a recruiting center for applicants interested in working at BlueOval SK Battery Park in Glendale, Kentucky.

“BlueOval SK is committed to our investment and bringing 5,000 new jobs to the Commonwealth of Kentucky,” BlueOval SK CEO Dr. Robert Rhee said. “Having our business offices in Elizabethtown allows us to build a greater connection to many of our partners, suppliers, and the people of Hardin County.”

BlueOval SK will host an open house for elected officials and members of the business community Tuesday, Nov. 14 from 9:30 a.m. to 10:30 a.m. at the new office space on Ring Road. A sign unveiling ceremony will take place at 10 a.m. with remarks from the BlueOval SK leadership team and community.

Members of the community and potential applicants are invited to attend a job fair at 2323 Ring Road on Tuesday, Nov. 14 from 3:30 p.m. to 6 p.m. Human resources representatives will be available to answer questions and accept applications.

“We’re excited to ramp up hiring in the upcoming year at the BlueOval SK battery plant in Kentucky,” BlueOval SK Human Resources Director Neva Burke said. “We offer great pay, great benefits, plus the opportunity to have a good career and support your family.”

The new BlueOval SK office space served as home for First Federal Savings Bank of Elizabethtown for several decades. Local historians say the building housed one of the first elevators in Elizabethtown. Jack Henry & Associates most recently occupied the building and renovated the facility.

“We’re eager to get our staff in this new space that sat empty for several years,” Rhee said. “We hope to breathe new life in this building and have a positive impact on the community.”

Construction is on schedule at BlueOval SK Battery Park in Glendale, Kentucky with battery production slated to begin in 2025. Apply now at blueovalsk.com.
